Luft- und Ventilatorentechnik GmbH

Setpoint adjuster 0-10 V Type: HF10 IP66 with toggle selector switch 0-I

Part. No. 18069420

The Fischbach control unit HF 10 IP 66 with toggle selector switch 0-I includes a 10kOhm-setpoint adjuster for controlling units with 10V-output and 0-10V control input, as well as an additional switching contact. Solid, impact-resistant surface-mounted casing, protection class IP66 for use in industrial and kitchen areas.

Technical information:

- Rated insulation voltage U_i : 250 VAC
- Rated impuls withstand voltage U_{imp} : 4kV
- 10k Ω
- Monoblock housing with measurement scale 1 rotation
- Mounting in any position possible
- Control: linear
- Resistance tolerance: $\pm 10\%$
