FISCHBACH

Luft- und Ventilatorentechnik GmbH
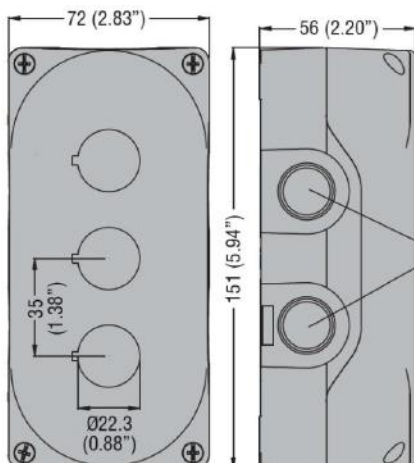

Setpoint adjuster 0-10V type: HF10F IP66 with LED toggle switch 0-I and LED indicator light Item-No. 18069433

Fischbach setpoint adjuster HF10F IP66 with blue LED toggle switch 0-I and additional yellow LED indicator light contains a 10 kOhm potentiometer for controlling devices with 10V output or 0-10 V control input, as well as an additional switching contact for valves etc. Robust, impact-resistant surface-mounted housing, protection class IP66.
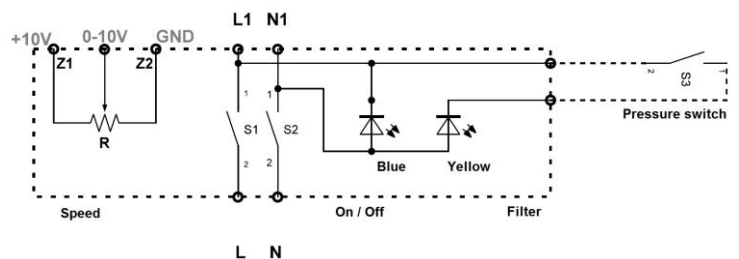

Technical information:

– Rated insulation voltage U_i: 250 VAC
– Rated impuls withstand voltage U_{imp}: 4kV
– 10kΩ
– Monoblock housing with measurement scale 1 rotation
– Mounting in any position possible
– Control: linear
– Resistance tolerance: ±10%
