

FISCHBACH

Luft- und Ventilatorentechnik GmbH **made in germany**

» Fischbach Compact Fangrid Efficient, compact, powerful.

Especially in demanding applications of ventilation technology, where flexibility and efficiency play an important role, the selection of commercially available fans is strongly limited. Our FANGRIDS are perfectly suited for this purpose, with high-quality craftsmanship and IP65 motor protection class. Controllable with the most advanced EC technology, offering various networking options for easy and secure monitoring of your ventilation systems.

Advantages of the Fischbach EC-FANGRID:

- Sizes ranging from 315mm to 710mm
- Energy-efficient EC motor, networkable
- High motor protection class IP65
- Special moisture protection available
- Various configurations available
- Extremely low vibration

ERP CONFORM

FISCHBACH EC-CONTROLLER

The new Fischbach EC Controller in the 3rd generation ensures an even more efficient control of our ventilation products with EC motors (PM motors).

- Higher efficiency up to + 40%
- Significantly reduced noise level
- A performance increase of +30%
- Easy commissioning
- Optical monitoring function
- Protection class IP54

IP65

FISCHBACH
EC-disc armature motor
with external EC controller
for even more safety.
